

Welcome to KTrees!

Hutchinson's first local Christmas tree and Landscape tree farm. Thanks for coming!

This is a **CHOOSE & CUT-YOUR-OWN** Christmas tree farm, or you may choose a **FRESH-CUT** Christmas tree.

Please park your car **P** and walk the field.

There are saws for cutting your tree & sleds/carts to bring it back for processing at the Cut-Your-Own kiosk **K**

We will shake and bale your tree. We will drill for PIN stand if needed. Please ask if you need help to load your tree.

Most trees are pre-tagged and priced individually based on height, specie, & quality of trees. Non-tagged trees are priced per/ft (Spruce). If you have any questions, or need help, please ask one of the staff.

This is a working farm, please be careful of farm type hazards including trip hazards, rocks, stumps, and holes.

We wish you a safe and very Merry Christmas!

Choose & Cut-Your-Own Tree

Please look for trees that are pre-tagged with red/white price tag.

Do not cut a tree with a **SOLD** tag on it.

Non-tagged/un-sheared Spruce trees are at \$10 per foot

Saws are sharp. Have someone tilt tree away from cut to prevent binding

Please protect your children. No chains saws.

The prices are similar for both Fresh-Cut trees versus Cut-Your-Own tree includes Cashier, Shaking, Baling, and Drilling (if needed).

...ged with red/white price tag and located

...any time.

Shaking and Baling Trees

Shaking and baling should not be done below 28 degrees. No charge.

Trees become brittle and breakage may occur.

Our goal is to provide you with the highest quality tree.

Drilling Tree - PIN Type Stand

Please request we drill your tree for a PIN type tree stand if needed (no charge).

PIN type stands also available for purchase.
